

Georgia Bureau of Investigation-Division of Forensic Sciences

Implied Consent Operations Manual

CHAIN OF COMMAND

Date: 7/5/10

REV: 2

Approved: *ke*

The Implied Consent (IC) Section administers the breath alcohol testing, training and certification program subject to the provisions of the Official Code of Georgia Annotated and GBI Rules. In addition, the Implied Consent Section is responsible for the issuance of permits for all other types of chemical testing specifically addressed in GBI Rule 92-3 at the discretion of the Deputy Director of the GBI assigned to the Division of Forensic Sciences.

The IC Manager is responsible for the operations of the IC Section and serves as the official designee of the "Director of the Division of Forensic Sciences" to administer the duties and responsibilities promulgated under GBI Rule 92-3. This authority is granted at the discretion of the "Director of the Division of Forensic Sciences," otherwise known as the Deputy Director of the GBI assigned to the Division of Forensic Sciences.

The Department of Public Safety (DPS) Georgia State Patrol (GSP) has assigned employees to a specialist unit called Implied Consent to assist in the performance of the daily operations of the unit. The GSP Implied Consent Unit is under the direct supervision of a Sergeant First Class (SFC) and is staffed by GSP Troopers designated IC Area Supervisors. The IC Manager with DOFS supervises all Implied Consent support operations provided by the IC Section to local law enforcement agencies. The GSP SFC supervises GSP personnel and enforcement related issues. The GSP SFC makes assignments of IC supervision areas within the state.

The Implied Consent Section certifies law enforcement officers to perform breath alcohol tests pursuant to the relevant Titles of the Official Code of Georgia Annotated. The section administers the training program and maintains all records of operator training. The section approves and certifies the instruments used in breath alcohol testing. All instruments in the state used for evidential testing are inspected and certified on a periodic basis. These records are maintained by the IC Section.
